The purpose of the Community Partnership Program is to support projects that can 1) increase overnight stays in lodging facilities within Clackamas County, 2) bring visitors into your community from more than 50 miles away to recreate, shop, dine or take in the arts, cultural or historic offerings, and/or 3) entice visitors to linger longer. Being mindful of these points and the review criteria as you fill out this form will help make your application stronger. Funds are awarded on a competitive basis. The information you provide will be used by the Review Committee to evaluate your proposal and weigh it against others.

This entire form constitutes the application. Provide responses to each question. Incomplete applications will not be considered. Supplemental materials that help articulate the project are welcomed.

Separate applications are required for each project, even if an applicant is submitting multiple proposals.
